FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Continuation of Box II.1

Although claims 31, 52-57 are directed to a method of treatment of the human/animal body, the search has been carried out and based on the alleged effects of the compound/composition.

Continuation of Box II.2

Claims Nos.: 36-39

Present claims 36-39 relate to compounds defined by reference to Table X and XI. Tables X and XI could not be identified in the description, no support within the meaning of Article 6 PCT and/or disclosure within the meaning of Article 5 PCT could be identified. Consequently, no search has been carried out for these claims.

The applicant's attention is drawn to the fact that claims relating to inventions in respect of which no international search report has been established need not be the subject of an international preliminary examination (Rule 66.1(e) PCT). The applicant is advised that the EPO policy when acting as an International Preliminary Examining Authority is normally not to carry out a preliminary examination on matter which has not been searched. This is the case irrespective of whether or not the claims are amended following receipt of the search report or during any Chapter II procedure. If the application proceeds into the regional phase before the EPO, the applicant is reminded that a search may be carried out during examination before the EPO (see EPO Guideline C-VI, 8.5), should the problems which led to the Article 17(2) declaration be overcome.

PCT/182004/001701

Box II O	bservations where certain claims were found unsearchable (Continuation of Hem 2 of first sheet)
This intern	ational Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. X C	isims hips.: 36-39 scause they relate to subject matter not required to be searched by this Authority, namely;
ħ	lthough claims 31, 52-57 are directed to a method of treatment of the suman/animal body, the search has been carried out and based on the alleged effects of the compound/composition.
2. M C	taims Nos.: 36-39 scause they relate to parts of the International Application that do not comply with the prescribed requirements to such states that no meaningful international Search can be carried out, specifically:
3	ee FURTHER INFORMATION sheet PCT/ISA/210
	aims Nos.: scause they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III O	bservations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Intern	ational Searching Authority found multiple inventions in this international application, as follows:
1. A	s all required additional search fees were timely paid by the applicant, this international Search Report covers all varchable claims.
2. [A	s all seamhable claims could be searched withour effort justifying an additional fee, this Authority did not invite payment any additional fee.
3. D &	s only some of the required additional search fees were limely paid by the applicant, this international Search Report wers only those claims for which fees were paid, specifically idalms Nos.:
4. N	n required additional search fees were timely paid by the applicant. Consequently, this international Search Report is stricted to the invention that mentioned in the daims; it is covered by claims Nos.:
Remark or	The additional search faces were accompanied by the applicant's protest, No protest accompanied the payment of additional search fees.
